

- Testimonial -

The firm 'Polaris Studio' is associated with us since 2018.

They have done complete turnkey works offices and training centers in the past, with satisfactory timely deliveries of sites.

The latest work done by 'Polaris Studio' was of facade designed for the 'Pitambari Agro and Tourism' at Dapoli, Dist. Ratnagiri. A complete upliftment of the old building was possible because of their in depth understanding of our requirement by them.

They provided a solution with efficiency and intricacies of not only aesthetics but also budget constraints as well.

We would surely recommend Polaris Studio to be hired when you require a complete design solution. They are No.1 choice for all your "**Design and Build solutions**".
